

About Delight

Jennifer Rashleigh and Jeff Brown are the creative husband and wife team behind Delight.

Their chocolate is sourced exclusively from Certified Organic Fair Trade farms in the Dominican Republic.

It is then paired with the best organic cream from Harmony Organic in Ontario as well as other high quality ingredients, such as Espresso from Alternative Grounds and Organic Butter from L' Ancêtre. Their flour is sourced from an Organic farm in Lakefield Ontario where they stone ground Red Fife Wheat to order.

They have brought their passion for the best local and seasonal ingredients at Delight and applied it to curating the best Farmstead cheese and charcuterie in Canada.

Several original house made preserves, like Edgar's Pickles or Grilled onion Chutney, have become staples for many Junction Fromagerie customers.

Recently they have expanded their cheese repertoire to include some of the finest European cheeses.

"I love dealing with Jeff and Jennifer - they are such lovely, friendly and accommodating people, so easy to work with. They organized two receptions for me this summer and they were both hits - people absolutely loved the excellent quality and variety of the delicious cheese and chocolates. I will work with them again in the near future without hesitation!"

Nathalie Bonjour, Artistic Producer.

"Alterna Savings are always happy to support and work with our members. What better way to support Delight Chocolates than ordering their chocolates for our employees as a Holiday treat every year. They provide fair trade, organic and healthy quality chocolates that our employees look forward to receiving each year. They truly are the best chocolates in Toronto."
